## SPECIFICATION

### INDOOR & OUTDOOR PRODUCTS

Batch-to-batch variation in shade may occur within commercial tolerance. Some options may be subject to minimum quantities.

The technical specification of terrazzo is as follows:

**Composition:** Concrete with marble chippings

**Usage:** Indoor and Outdoor Products.

Terrazzo is a composite material mainly consisting of marble chippings, although other stone and tile chippings can also be used. These chippings are mixed into cement and then poured by hand into a mould to cast the product. Terrazzo finishes can have variations in colour and texture. There are two main finishes available:

**Polished:** A smooth finish.

**Rough:** A textured finish similar to concrete

Please note that due to the nature of Terrazzo being a composite material with natural stone chippings, variations in colour and texture are expected and add to the unique beauty of the product. This is normal and adds to the beauty of the products and is not considered a defect.
